

## About the Rhomberg Sersa Rail Group

As a leading railway technology company, we offer our customers one of the most complete range of services in all aspects of railway construction and infrastructure services.

Within Rhomberg Sersa Rail Group there are pioneering technologies, decades of expertise and – even more importantly – almost 3,000 highly trained employees. They are experts with invaluable experience from complex projects all over the world. They realise our mission, which goes far beyond the company itself, namely to drive the success of the railway by providing innovative solutions and increasing efficiency, speed, comfort and safety.
